

RAVIVARMAN M

Frontend Engineer || eCommerce

ravivarmanm@outlook.com | +91 99442 37771 | Chennai, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE SUMMARY:

Frontend Engineer with 3+ years of experience building React.js and TypeScript web applications for high-traffic eCommerce products. Experienced in responsive UI development, accessibility, Core Web Vitals optimization, GraphQL, and cross-functional collaboration across distributed teams, with work spanning millions of users and measurable conversion impact.

SKILLS:

Frontend: React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, GraphQL, REST APIs
UI/Accessibility Responsive Design, Cross-Browser Compatibility, Storybook, ARIA, WCAG 2.1
Quality/Build: Core Web Vitals, Vite, Webpack, ESLint, Unit Testing;
Workflow: Git, Jira, Agile/Scrum, NPM.

EXPERIENCE:

Frontend Engineer | Cognizant — Ace Hardware Platform

Aug 2022 – Present | Chennai

Owned frontend systems for a high-traffic US eCommerce platform serving millions of users, with work across PLP, PDP, Cart, and Checkout flows.

- **Reduced cart abandonment by 15%** by rearchitecting checkout validation and offer presentation logic across multi-step purchase flows.
- **Responsive Application Development:** Developed and maintained responsive, cross-browser-compatible React.js + TypeScript web applications serving millions of high-traffic eCommerce sessions, directly owning PLP, PDP, Cart, and Checkout flows.
- **UX/UI Collaboration:** Collaborated closely with UX/UI designers to translate Figma designs into pixel-accurate, accessible interfaces — consistently applying UX best practices to ensure seamless, intuitive user experiences.
- **Performance Optimization:** Optimized Core Web Vitals through code splitting, lazy loading, and GraphQL query optimization to improve rendering and load-time performance.
- **Accessibility Leadership:** Achieved 100% WCAG 2.1 compliance across Account and Order Management modules by implementing ARIA roles and full keyboard navigation.
- **Legacy Modernization:** Migrated critical UI modules from Backbone.js to React.js + TypeScript, reducing code volume by 40% and improving maintainability and onboarding velocity.
- **Checkout & Conversion:** Optimized multi-step checkout validation and offer logic, contributing to a 15% reduction in cart abandonment and improved conversion performance.
- **Developer Experience:** Built a centralized Storybook component library for modals, sliders, and form controls, accelerating cross-team velocity by ~20% and standardizing reusable UI patterns.
- **Full-Stack Collaboration:** Designed and built Yard-Rx, a location-aware product recommendation feature that integrated geolocation APIs and GraphQL data layers with back-end engineers.

PROJECTS:

Equity Fund Tracker — React.js · TypeScript · REST APIs

- Building a financial dashboard with SIP calculator, fund comparison, and NAV performance visualization.
- Designing reusable component architecture and scalable state management for real-time financial data.
- Planned: integrating AI-generated fund insights using LLM APIs for personalized recommendations.

Chatbot UI — React.js · JavaScript · API Integration

- Built a dynamic chatbot interface with real-time message rendering and conversational flow handling.
- Designed for extensibility — architected to plug into any AI/LLM backend (OpenAI, Claude API).

EDUCATION & CERTIFICATES:

B.E. Electronics & Communication Engineering — Government College of Technology, Coimbatore (2019–2022, GPA: 7.67)

Certifications: Microsoft Azure Fundamentals (AZ-900) • Azure AI Fundamentals (AI-900) • Kibo Developer Certified
